

Terms of participation of minors in the ZHS water sports program

ZHS authorized participants' children may also attend ZHS classes.

The same thing goes for USC members' children from the Sailing Department.

Only children who are at least 15 years old are allowed to participate in the ZHS program. A parent has to accompany (be on board) children under 16 at all times. Once a child turns 17, they may participate by themselves, but only after speaking to the department head (Tobias Borucker) first. He has to ensure that an adult is always supervising (for example, an extra skipper). The adults responsible for the child have to also give their written consent first.

Minors are not allowed to borrow athletic equipment due to legalities. They have to be accompanied by a legal guardian who is liable for the equipment (or an acting skipper).
